Q

QUEBEC Bridge, The New, Progress of Erection, 416 (*Two-page Supplement, October 29th*, 1915)

R

RAILWAY Track Supply Company's Trucks, 92, 93
Ransomes, Sims and Jefferies' Four-furrow Plough, 630
Reed Beater, James Milne and Son, 404
Reed-Prentice Company's High-speed Turret Lathe, 184 (*Two-page Supplement, August 20th*, 1915)
Rees-Roturbo Condensing Plant for Turbo-generator, 626, 632
Reyrolle High-tension Switchboard, 388
Richards, George, and Company's Lathe for Boring 6in. Shells, 463
Robey and Co.'s Steam Wagon, 574, 575, 576
Robinson, Cyrus, and Co.'s Bull Tractor, 362
Robinson, T., and Sons' Woodworking Machines at Cammell, Laird's Shipyard, 230, 243, 250
Rosecrans Engineering Company's Chain Drive of 5000 Horse-power for an Electric Generator, 340
Roux, G. P., on Open Delta Connections for Transformers, 262
Royal Agricultural Society's Show at Nottingham, 8, 30, 36, 58
Royce's Pulley Blocks, Hoists and Transporters, 54
Ruston, Proctor Convertible Oil Engine, 550

S

SALTER'S Tensile Testing Machine, 174
Sault Ste. Marie, Double-leaf Bascule Bridge over the U.S. Ship Canal at, 246, 247
Saunderson and Mills, 20 Horse-power Oil Tractor, 630
Shaw, J., and Sons, Manufacture of Shell Forgings, 606, 607
Simon, Henry, Limited, Pneumatic Grain Elevating Plant, 361, 366 (*Two-page Supplement, October 15th*, 1915)
Smith and Coventry's Lathes for Shells, 116, 117, 558, 559
Smithfield Club Show, 550, 574
Snyder, W. T., on Direct-current Control Gear for Hoisting Equipments, 208
South American Railway Instruction Car, 526, 527
South Shields, New Graving Dock at, 154, 158
Spain, Hydro-electric Undertakings in, 41, 42
Stafford Company's Automatic Loom, 132
Stephens and Adamson Company's Conveyors for Discharging Bulk Cargoes from Steamers, 622
Stepney Electricity Works, 385, 390
Strachan and Henshaw's Mono-rail Electric Telpher System, 40
Sullivan Machinery Company's Compressed Air Machine for Forging Mining Drill Bits, 74

T

TALARN Dam, Spain, 41, 42
Taylor's Machines for Production of Projectiles, 116, 117
Thomas Transmission Rail Coach, J. Tylor and Sons, 42
Tower Beater, Masson, Scott and Co., 404
Turner, E. R. and F., Four-cycle Semi-Diesel Engine, 31, 58
Tylor, J., and Sons, Rail Coach, Thomas Transmission, 42
Tyne Docks, Repairs to the Gates at the 70ft. Entrance to, 412, 418

U

UMPHERSTON Beater, James Bertram and Son, 403, 404

V

VAUGHAN Crane Company, Electric Hoists and Transporters, 54
"Vibromotor" Strainer and Drive, 545, 546, 554
Vickers, Colonel T. E., C.B. (Portrait), 383

W

WALDRAM, Percy J., on Economy in the Design of Reinforced Concrete Columns, 28, 52
Wallis and Steevens' Three-furrow Plough, 630

ELECTRICAL MATTERS:

Automatic Electric Control for Hydraulic Accumulators, Igranic Electric Company, 301
Barker, John, and Co.'s Electric Plant at Kensington, 432, 436
Birmingham, Temporary Electric Generating Station at, 502, 506
Chain Drive of 5000 H.P. for an Electric Generator, 340
Crank Drive in Electric Locomotives, 287
Direct-current Control Gear for Hoisting Equipments, W. T. Snyder, 208
5000-volt Direct-current Railway in Michigan, Tests, American Westinghouse Company, 437, 440
Flow of Electrical Energy, R. A. Philip, 67
Hoists, Sprague Electric, British Thomson-Houston Company, 40, 41
Hoists and Transporters, Vaughan Crane Company, Limited, 54
Hydro-electric Power-house and Plant in New Zealand, 254
Hydro-electric Undertakings in Spain, 41, 42
Laboratory Motor Generator Set, Electric and Ordnance Accessories Company, 18
Lamp, High Efficiency Incandescent, E. A. Gimingham and S. R. Millard, 583
Lamps, other Electric—*see* Lamp
Lifting Tackle with Deri Single-phase Motor, Brown, Boveri, and Co., 40, 41
Lifting and Travelling Blocks, Locomotive Lifting Jacks and Wall Cranes, Holt and Willetts, 55, 56
Locomotives—*see* Locomotives
Miners' Lamp, Pearson's Electric Miners' Lamp Company, 138
Mono-rail Electric Telpher System, Strachan and Henshaw, 40
Open Delta Connection for Transformers, G. P. Roux, 262
Pulley Blocks, Hoists and Transporters, Royce Limited, 54
Railways—*see* Railways
Single-phase Loads from Polyphase Systems, G. B. Lamme, 185
Private Electrical Plant—*see* Barker, John
Stepney Electricity Works, 385, 390
Switchgear at Stepney Electricity Works, Reyrolle, A., and Co., 388
Trucks, Edison Accumulator Railway Track Supply Company, 92
Turbo-alternator, Dick, Kerr and Co., Limited, 312, 313, 318
Turbo-alternator, High-speed 6000 Kilowatt at Manchester, British Westinghouse Company, 599
Turbo-generator, 1250 Kilowatt, at a Middlewich Chemical Works, Mather and Platt, Limited, 626, 631
Wall Crane, Holt and Willetts, 55, 56
Workshops, Electrical Appliances for, 40, 54, 92

ENGINES AND MOTORS:

Diesel Engine Piston, Mirrlees, Bickerton and Day, 86
Gas Engine, 20 B.H.P., British Westinghouse Company, 30, 31
Gas Engine, Vertical Tandem, British Westinghouse Company, 208; (Letter), 316
Kromhout Engines, for the Oil Motor Tank Ship Hera, 478, 482
Oil Engine, 12 H.P., Blackstone and Co., 9, 30, 31
Oil Engine, Convertible, Ruston, Proctor and Co., Limited, 550
Oil Engine, 72 B.H.P. Heavy, Crossley Brothers, Limited, 9, 30, 31
Oil Traction and Ploughing Engine, Walsh and Clark, 30, 31, 36
Semi-Diesel Engine, Fielding and Platt, 59
Semi-Diesel Engine, Marshall, Sons and Co., 550
Semi-Diesel Engine, E. R. and F. Turner, 31, 58
Semi-Diesel Vertical Valveless Engine, Clayton and Shuttleworth, Limited, 58
Semi-portable Oil and Semi-Diesel Engines, Petters Limited, 551
Traction Engine, American Caterpillar, Holt Manufacturing Company, 254

EXHIBITION, Panama-Pacific, Some Locomotives at, 66

Paragraphs.

A

ACCIDENTS in London Streets, Great Increase, 273
Acetol for Removing Carbon Deposit from Engines, 11
Acetone Production from Wattle Wood, Investigation, 11
Acetylene Gas, Corrosive Effect on Pipes and Metal Containers, 435
Acetylene Gas Generating Apparatus, Non-explosive Gas at Low Cost, 273
Aerial Ropeways for the War-office, Record Speed in Manufacture, 389

AERONAUTICS:
Advisory Committee Investigations Relative to Stability of Aeroplanes, 11
Aeronautical Institute of Great Britain, 353
Aeronautical Institute of Great Britain, Members, 411
Aeronautical Production Committee, 540
Aeronautical Production, Funds Needed for Organisation, 553
Aeroplane Industry to be Started in Australia, 87
Aeroplanes and Aero Engines Supplied to the Allies by the United States, 225
Fourth Aeroplane Presented to Royal Flying Corps by Gold Coast, 553
Grahame-White and his Aviation Company, 157
Huge Triplanes to be Constructed by Germany, 481
Hydro-aeroplanes, Design of Hulls, H. C. Richardson, 133
Military Aeronautics, Men Needed in Inspection Department, 518
Parachute Life-saving for Aviators, 179
Royal Naval Air Service, Rapid Expansion of *Personnel* and *Matériel*, 249
Signalling from an Airship, Electric Flashlight, 553
Wireless Telegraphy Instruction for Flying Corps, 35

AFRICA, formerly German South-West—*see* German
Air of the City of London; Rain Water Analysis and Dirt Revelations, 356
Alloy, New Acid-resisting, 529
Aluminium Alloy, Non-sweating and Non-corrosive, 273
Aluminium Alloy Piston Cast in Permanent Moulds, Standardisation of, in the United States, 457
Aluminium Alloy Pistons on Motor Car Engines, 35
Aluminium Castings, Need of Suitable Tools and Lubricants, 365
Aluminium Consumption, Steady Increase, 225
Aluminium Recovery in Melting Chips, Mechanical Cleanliness, 625
American Industries Benefit from European War, 597
American Machines for Trench-digging at the Canadian Training Camps, 133
American Motor Cars, Improvement Predicted, 365
Anti-aircraft Guns, Tests at Copenhagen, 625
Aquatic Mollusca of South Galway Destroyed by Motor Barges, 317
Architects and the War Department, 157
Arsenate of Calcium as an Insecticide, 389

ASSOCIATIONS, INSTITUTIONS, AND SOCIETIES:
Institute, The Aeronautical, of Great Britain: Inauguration, 353
Institute, Iron and Steel:
Annual and Autumn Meetings for 1916, 516
Institute of Metals:
List of Papers, 169
Birmingham Section: Metallurgical Problems Arising Out of the War, 553
Institute, The Royal Sanitary:
Programme of Lectures, &c., for Sanitary Officers, 110
Institution of Civil Engineers:
Awards for Papers, 407
Earlier Hour for Meetings, 468
Institution of Electrical Engineers:
Museum of Interesting Historical Specimens of Apparatus, 203
Birmingham Local Section: Arrangements for Meetings, 396
Manchester Students' Section: All Meetings Cancelled, 577
Newcastle Section: Power Station Switchboards and Switchgear, Design of, P. V. Hunter, 553
Institution of Locomotive Engineers (Incorporated):
Change of President, 564
Institution of Naval Architects:
Dates for Next Annual Meetings, 457
Scholarship Award, 237
Institution, North-East Coast, of Engineers and Shipbuilders:
Future of British Engineering and Shipbuilding, E. W. Fraser Smith, 179
Institution, Royal:
Meetings and Elections, 76, 431, 564
Programme of Lectures before Easter, 564, 584
Society of Engineers:
Awards, Elections and Membership, 577

ASSOCIATIONS, INSTITUTIONS AND SOCIETIES (*continued*):
Society, Faraday:
Corrosion of Metals, Ferrous and Non-ferrous, 540
Society, Royal:
Consumption of Carbon in the Electric Arc, Professor W. G. Duffield, 601
Society, Royal Meteorological:
Incidence of Bright Sunshine over the United Kingdom During Thirty Years, 1881-1910, F. J. Brodie, 600
Mounting and Illumination of Barometers and Accuracy Obtainable in Readings, J. S. Dines, 492
Rainfall over the British Isles, N. A. Comissopulos, 492
Remarkable Cloud Phenomena, Dr. W. Galloway, 600
AUTOGENOUS Welding and the Need of Care, 324
Automatic Stokers, Large Capacity, The Erith-Riley, 73
Automobile, Delivery, Record Run, 601
Automobile Speedway, Timber Track, 553
Automobiles, Solid Tire Rims, Engineering Standards Committee, 26

B

BEARING Metal, Choice of, under Abnormal Working Conditions, 6
Bearings, White Metal, Roller and Ball, Relative Efficiency, 225
Belgian Commission for Military Inventions, 330
Belts, Oak-tanned Leather, Relative Humidity, Investigations, Professor W. W. Bird and F. W. Roys, 411
Benzol for Mixture with Petrol in Car-running, 179
Benzol and Toluol, Manufacture in Germany Restricted, 389
Birmingham's Enormous Water Consumption, Hardness of Water, 35, 529
Birmingham's Exports to America, Decline in Trade, 157
Birmingham Municipal Gas Economy, 365
Blueprinting Typewritten Sheets, 528
Board of Trade Twopenny Handbooks to Aid Employment Committees, 365
Board of Trade and Unemployment, 61
Boiler Attendants, Advice to, Annual Memorandum, C. E. Stromeyer, 341, 376
Boiler Explosions with Cast Iron Heating Boilers in the United States, 249
Boiler Plugs, Fusible Tin, Result of Investigation, 87
Brest Harbour, Natural and Engineering Advantages, 625
Briquetting Plants and Fuel in the United States, 179
Bristol Merchant Venturers' Technical College, War Service Record, 61
British Electrical and Allied Manufacturers' Association, Decision Against Annual Dinner, 516
British Industries Fair, 625, 638
British Thomson-Houston Man Awarded D.C. Medal, 146
British Trade Prospects in China, 307
Bullets in British and American Shells, Comparison, 111

C

CABLE Communication Between United States and Germany not to be Restored, 35
Calcutta's Foreign Trade, Decrease Due to War, 295
Calorimeter, New Type, H. C. Dickinson and N. S. Osborne, 11
Canada, Effect of the War on Immigration into, 337
Canadian By-product Coke Oven Plants, 133
Cast Iron Blanking Dies, F. C. Mason, 11
Cement, Establishment of Laboratory for Testing, 435
Centrifugal Pumps, Proper and Improper Packing, 411
Ceylon Plumbago, 608
Chains and Lifting Appliances and Legal Regulations, Home-office Memorandum, 601
Chemical Industry of Roumania, Lack of Material, 203
Chemical Science and the War, 179
China as a Market for Machinery and Electric Lighting Installations, 255, 577
Chinese Neglect of Machinery; Consul's Suggestion to British Manufacturers, 317
Christmas Juvenile Lectures, Professor H. H. Turner, 431
Cloth for Aircraft, Measures to Prevent it Reaching Enemy, 317
Coal Bureau in Holland, 133
Coal Consumption Increase in China, 625
Coal Deterioration; Methods of Storage, 295
Coal Output and Transport Shortage, Board of Trade Letter, 317, 341
Coal Price and Heating Value, 111
Coal Storage at Hammersmith, 317, 341
Coal Supply, Board of Trade Announcement, 540
Coke Breeze as Locomotive Fuel, 61
Coke and its By-products in Germany, 11
Coke Supplies and Maximum Prices, 601

Coking Slack Shortage, Board of Trade Suggestions, 601
Concrete, Ordinary and Reinforced, Roads, and Gas Mains Question, 601
Constructional Data for Telescope Objectives, 264
Copper Extraction Plant in the United States, 249
Copper Goods for Holland, Copenhagen and Sweden, Sudden Remarkable Increase in Extent of Orders, 411
Copper in South-West Africa, 73
Corrosion of Metals: Ferrous and Non-ferrous, 540
Corrosion of Small-sized Articles, Method of Protection, 529
Cranes, Advantages of Electric Working Compared with Hydraulic and Steam, C. H. Woodfield, 18
Crystal Palace School of Engineering, Awards, 145, 636
Cutting Odd Threads, 636

D

DESIGN and Lubrication of Bearings, F Foster, 35
Diesel Engine, New Type for Italian Government, Franco Tosi, 411
Differential Resonator for Tuning Musical Instruments, &c., Dr. E. H. Murfee, 61
Drawings of Machinery, Hint for Draughtsmen, 3
Drills and Drilling Machines; Which is at Fault? 601

E

EDINBURGH Castle One o'clock Time Gun Put out of Action by Lightning, 179

ELECTRICAL MATTERS:
American Electrical Industry and the European War, 249
Arc Generators of Large Size for Radio-Telegraphy, 601
Birmingham Electrical Supply; Difficulties Ending with Completion of Temporary Station, 435
Cable Testing; Possibility of Undetected Flaws, 273
Car Testing Set at Purdue University, 273
Circuit Breaker, New Form, 61
Circuit Breaking under Control for Scientific Investigations, 87
Classification of Alternating-current Motors, V. A. Fynn, 133
Commutator Life Increased by Insulating Paste Filler, 157
Concrete in Cold Weather Kept Warm by Electric Car Heaters, 457
Determination of Resistances, 249
Developments in Electric Heating, G. Wilkinson, 625
Dredger with Self-starting Synchronous Motors, 203
Dust-collecting Van, Electric, Success, 317
Edison Battery 30-Cwt. Vehicle for Edinburgh, 317
Electric Delivery Vehicle as an Economy for the Small Tradesman, New Edison Battery Type, 411
Manufactures in the United States, June Exports, 365
Meters and Spiders, 111
Motor Cars, Cost of Running, 179
Standards Committee Rules, 470
Tramcar Company to Repair Motor Cars Damaged in Collisions, 157
Vehicle Committee, Meeting, 389
Electrocution by Thief-catching Device, 481
Ferry, with Overhead Trolley Conductor, at Strasburg, 577
Fog Dispelled by Electrical Machine, Experiments in San Francisco, 457
France and the Electrical Industries During the War, 273
Furnace, Electric, Development in the United States, 341
Generator, 10-kilowatt, 10,000-volt Continuous-current, 625
Generators, Design of, to Produce True Line Curve, 225
Generators, Freedom from Fire Damage, 577
Historic Electrical Apparatus Collection, 61
Imports, Electrical, of the United Kingdom, Increase Since the Outbreak of War, 61
Injurious Harmonics in a 750-kilowatt Generator, 157
Insulation Strength of Transformer Oil used with High Voltage, 356
Iron as Substitute for Copper in Transmission Lines for Germany, 295
Leonard Control Applied to Mine Hoists, R. Torikai, 553
Live Wire Risks, Involuntary Connection, 553
Locomotives, Powerful Single-unit Mine, 35
Mechanical Stresses and Electrical Apparatus, 389
Meter Registration Affected by Surrounding Magnetic Fields, 481
Mossay Electric Vehicles for Refuse Disposal Works, 35
Noisy Alternator and the Remedy, 157
Oerlikon Works Special Transformer for Own Laboratories, 245
Oil-cooled Transformers and Short-circuiting, 317
Oil Switches as a Cause of Danger, 273
Organising the Electrical Supply, Howard Foulds, 534
Photometry of Stars, Electrical; Use of the Selenium Bridge, Stebbins, 317
Pocket Blasting Machine, Electric, 317
Portable Power Plant on a Motor Truck for Film Production at Night, 389
Power Factor Correction, 273
Power Factors of New Incandescent Lamps with Spiral Filaments, 35
Power Transmission, Unique Example, 240
Protection of Conductors Against Danger from Stray Currents, 389
Pumping Experiments, Electrical, in India, Successful Results, 317
Refrigeration Installations, Great Use in Silk Dyeing, 35

ELECTRICAL MATTERS (*continued*):
Rickshaws in India, Suggestion to Replace by Electric Vehicles, 389
Rotary Hammer Type of Electric Drill, 529
Russian Military Industries Committee, Removal of Electrical Apparatus, 415
Sand or Earth Resistance to Electric Current, 411
Scotland, Electrical Supply for, Suggested Division into Three Areas only, W. W. Lackie, 457
Separation of Voltage Wave into its Component Harmonics, 389
Short Circuits and Protective Measures, 15
Simla Municipal Electric Supply, Extension in Hand, 341
Snow White Glass for Electric Lamp Shades, 295
Solid Tire Does 25,000 Miles on Electric Vehicle, 10
Static Charges of Electricity, 249
Temperature Rise for Transformer Oil, 203
Three-phase Motor Coal Trucks, 457
Three-storey Building to House a 60-Cycle 1,000,000-Volt Transformer, 577
Transformers, Large, Need of Satisfactory Arrangements, for Oil Drainage, 341
Use of Water Power for Generating Stations in Spain on the Increase, 457
Watering Van, Electric, for Blackpool, 317
White Flame Arc, Twenty-five Ampères; Light Valuable for Colour Testing, 457
Worcester City Electricity Department, Absence of Profits, 87
ELECTROLYTIC Antimony Refining, A. G. Betts, 601
Emissivities of Metals and Oxides near Melting-point, G. K. Burgess and R. G. Waltenberg, 61
Engineering Institutions, Unauthorised Use of Letters and Abbreviations Signifying Membership, 111
Engineering Institutions' Volunteer Training Corps, 19—*see* Miscellaneous Index
Engineering Standards Committee: Electrical Standards Committee Rules, 470
Engineering Standards Committee, Solid Tire Rim Diameters for Automobiles, 26
Exhibition of Empire Natural Resources, Institute of Industry and Science, 11
Explosion in the Grain Bin of a New York Elevator, 249

F

FARMING in Oregon Greatly Assisted by Electricity for Light and Power, 203
Fibrox, Dr. E. W. Weintraub, 178
File Sharpening, Sand-blasting Apparatus for, 553
Filter Papers, Toughening, 365
Fireproof Building Material, 111
Forgings, Question of Extrusion of Metal, 457
Foundry Operations with Bronze, 553
French Bomb-throwers and German Captures of "Guns," 273
Fruit Cleaning and Grading by Machinery, 480
Fuel Binder, French Patent, 411
Fuel Gas Used in Autogenous Welding, Discovery of Cheaper Substitute, 133
Furnaces, Electric—*see* Electrical Matters
Furnaces in Sheffield, Simple Induction *versus* Crucible, 625
Fusible Tin Boiler Plugs, Investigation, 203

G

GAS Companies and the War-office, 553
Gas Engineering and Gas Manufacture, 306
Gas Extraction from Peat Mixed with Coal, 625
Gas Meter Reading by Photography, 225
Gas and Petrol Engines at the Panama-Pacific Exhibition, 364
Gas Production from Mixture of Peat with Coal, 341
German and Austrian Trade Capture, Board of Trade Inquiries Lists, 341
German Chemical Research to Find Substitutes for Aluminium, Brass and Copper, 87
German Chemists for France, 295
German Copper Scarcity; Flex to be Made with Iron Wire, 435
German Economics According to Dr. W. Rathenau, 317
German Export Trade and War Committee of German Industry, 157
German Food Cost and the British Blockade, 157
German 42 cm. Gun, Secret of Dimensions and Character, 577
German Hunt for Copper in Switzerland, Advantage Taken of Peasants' Ignorance, 273
German Jute Spinning and Weaving Works, Search for Substitute for Indian Hemp, 249
German Labour Disputes in 1915, Statistics, 534
German Labour Returns; Reduction in Workpeople; Employment of Women, 203
Germans' Live Wire Barricade between Holland and Belgium, 435
German Locomotives for Norway and Lack of Copper, 365
German Oil Fruits and Demand for Grease, 341
German Reports of Plenty in Home Supplies of Food and Steel, 389
German Requisitioning of Metal, Metal Utensils, Instruments, Church Bells, &c., 202
German South-West Africa Prior to the War; Projected Aerial Photographic Survey, 133
German Trade Unions' Huge Payments to Members' Families in connection with the War, 225
German War Trophies on the Horse Guards Parade, 481
Germany and the Ironmongery Trade, 553
Girl Turning Out Shells from a "Gisholt" Combination Turret Lathe, 625
Glasgow, Co-ordination of Naval, Military and Civil Requirements, 203
Glass and Porcelain Scientific Apparatus; Manufacture in this Country Considered, 157
Glass for X-ray Bulbs in France, 179
Gold Find in China, 295
Goods Imported from Enemy Countries Before the War, Board of Trade Regulations, 577
Greenwich Observatory, the Moon, the Earth, and Navigation, 11
Grinding Wheels, Speed, &c., Recommended, C. G. Smith, 411
Guns, Disappearing, for Submarines and Against Aircraft, United States, 111

H

HEATING Concrete with Car Heaters to Lay Street Track in Winter, 505
High-speed Tools, Difference Between Hardness and Cutting Ability, 577
Hottest Region in the United States, Shade Temperature of 134 deg. Fah., 577
Humidity, Effect of, on Leather Belting, 179
Hydro-electric Development in the Western States of America, 133
Hydro-electric Installations in the Caucasus, 179
Hypochlorite of Magnesium, Electrolytically Made, Advantages, Dr. F. W. Alexander, 87

I

ILLIUM, New Acid-resisting Alloy, 529
Impure Platinum Crucibles; Thermo-electric Test, 435
India's Cotton Waste, Former Exports to Germany, How to Utilise in India, 225
Institutions—*see* Associations

IRON AND STEEL:
Critical Points in Iron, Steel and Non-ferrous Alloys, "Scimatco" Method of Accurate Determination, 481
German Comments on Professor Arnold's Theories of Steel Development, 435
High-speed Steel, Scarcity in the United States, 132
High-speed Steels, Wet or Dry Grinding, 553
Iron Ore Output of Algeria, 87
Magnetic Test of Steel Rails, 35
Marked Bar Prices Advanced to £12 10s. a Ton, 365
Plate Mill, Largest in the World, 625
Production of Various Grades of Pig Iron from the Same Blast Furnace Heat, Successful Experiments, 529
Research Committe, Joint Action, 529
Resicza Steel Works, Hungary; Vast Military Importance to Hungary, Possibilities of Balkan Outbreak, 277
Scrap Iron Collection by Germans in Russian Poland, 87
Sheet Manufacture, Galvanised Sheets and High Price of Spelter, 35
Spectroscopic Analysis of Steel, 389
Steel Analysis by Spectroscopic Methods, 87
Steel Used for Motor Vehicles, Joint Research to be Undertaken, 435
Tests of Piston-rods Made of Special Steel, 317
Tubes and Sheets of Electrolytic Iron, Process at French Works, 529
ITALY'S Foreign Trade, 133

J

JAPANESE Glass in Great Demand in England to Replace Supplies from Belgium and Germany, 510

L

LADDERS for Lamp Operators in Chicago Streets, Novelty in Fixing, 389
Lead Coating for Iron and Steel for Tank Linings, Condensers, &c., 225
Lead-covered Cables, Telephone and other, Destroyed by Boring Insect, 203
Lighthouse Station for Navassa Island, Caribbean Sea, 389
Lighting in the Metropolitan Area During War, Reduction and Uniformity, 341
Lorries, French Military, Rods to Prevent Overturning, 295

M

MACADAM Streets, Destruction of, Stronger Foundations Needed, H. E. Stilgoe, 601
Machine Tools for Manufacture of War Munitions, 11
Machine Tools, Prohibition of Importation, 529
Manchester Atmospheric Pollution Measured by Automatic Electric Apparatus, W. Thomson, 61
Manchester's War Trophy, 179
Manganese Exports from India, 111
Manganese Ore Exports from Russia, 87
Melting Points of Chemical Elements, Washington Bureau of Standards Table, 365
Mexico as an Oil Fuel Producing Country, 435
Mica Abundance and Unsatisfactory Returns in India, 411
Mine Explosions due to Preventable Causes, 529
Mines in South Wales, Inspector's Report, Statistics, 295
Mines in the United Kingdom, Home-office Blue-book, 411
Mining at a Vertical Depth of a Mile Below the Surface in Brazil, 457
Ministry of Munitions, Appointment of Sir Salter Pyne, 337
Misfiring on a Ford Car, 317
Motor Car Construction, Standards for Various Components, 203
Motor Car Tires, Necessity of Perfect Alignment, 203
Motor Car Trade and American Competition, 273
Motor Cars, Chassis and Parts, Statistics of Imports into the United Kingdom, 411
Motor Cars in the United States, Date of Announcement of New Models, 481
Motor-cycle Two-stroke Petrol Engine, 461
Motor Factories' Value for Munitions, British Output will Exceed German, 577
Moving Picture Plant, Artificial Illustration, Experiments to Replace Daylight, 225
Munition Factories' Work Imperilled by Scarcity of Labour at Gas and Electrical Supply Works, 457
Munition Workers, Classes in Birmingham for Training, 435
Munition Workers, Skilled, Great Scarcity of, 249
Munition Workers, Training at King's College, 19
Munitions Production in the Manchester District, Organisation, 61
Munitions Production, Organisation of Voluntary Help, 203
Munitions Statistics According to Germany, 225
Munitions of War Manufacture in the United States, Bribing Skilled Workers to Leave Government Work, 111
Munitions of War, Need of Scientific Assistance, 61
Munitions of War Production in Italy, New Association Formed, 365
Munitions of War, Release of Skilled Men from the Army, 133

N

NATIONAL Physical Laboratory's Publication to Aid Optical Instrument Makers, 264
National Society of Brassworkers and Metal Mechanics' Notice to Workmen, 61
Naval Shipwrights, Admission of Boys to Training, 553
Neutral Trading and Declarations before H.M. Consuls, 26
New Machines in Excess After the War, 11
New Zealand's Offer of Machine Guns, 481
Niagara Gorge, Proposed Dam to Secure 2,000,000 H.P., 225
Nickel Anodes Welded by Oxy-Acetylene Process, 529
Nickel Exports from Canada to Enemy Countries, Government Prevention, 295
Nitrates, Artificial, Hydro-electric Plant for Manufacture in France, 111
Nitro-toluol Still Explosion in Yorkshire Chemical Works, 597
Nobel Prize for Physics Awarded to Professor W. H. Bragg for Examination of the Formation of Crystals by X-rays, 481
Noisy Work, Unnecessary, 480

O

OILS, Use and Abuse of, on Mining Plant, T. C. Thomson, 485
Oilstone, Method of Trueing, 435
Oil Wells in Alberta, 87
Omnibuses, Petrol or Electric Trolley, Comparison, H. Webber, 601
Optical Instruments—*see* National Physical Laboratory
Oxy-acetylene Welding, Protection of Workers, 87

P

PAPERMAKING Problems, Prizes Offered, 341
Paraffin and Petrol for Motor Cycles, 577
Patents and Enemy Aliens, 341
Peat and Chalk Used for Briquetting in Canada, 225
Petrol Consumption of the Overland Car, Test Immediately on Landing, 317
Petrol Engine, Commercial, Largest Ever Built, 87
Petrol Engine, Largest Built, for Transportation of Trains Across an Arm of San Francisco Bay, 435
Petrol Engine on the Two-stroke Principle, 461
Petrol Lorries or Motor Vans, American or English? 18
Petroleum Find in Chili, 111
Photography, Amateur, Advantage of Gas-filled Tungsten Lamp, 203
Pig Iron Production by Electric Furnace in Norway, 111
Piston Ring Fit and Carbon Deposits, 61
Piston Rings for Motor Car Engines, 295
Platinum Discovery in Spanish Mountains, 481
Platinum Purity and Loss of Weight on Heating, &c., Thermo Electric Test, 341
Portland Cement Manufacture in the Colonies 11
Portland Cement Production in the United States, 133
Postal Service of the Royal Engineers Special Reserve, Satisfactory Recruiting, 246
Potash Deposits in Germany and India Compared, 111
Potash Mines in Alsace, 481
Potash, The World's Supply of, 179
Pottery Establishments, Waste in Heat and Coal Consumption, T. R. Wollaston, 365
Printing Inks, Composition, Properties, and Testing of, 11
Projectiles in the Human Body, Radioscopic Method of Accurate Localisation, 157
Provisional Orders, Board of Trade Notice, 494

Q

QUEENSLAND Production Statistics for 1914, 249

R

RADIUM Discovery in Colorado Greatly Reduces Cost of Metal, 302
Radium Mineral Spring, Strongest in the World, 295
Radium in the Ocean, Investigations in the Gulf of Mexico, 133

RAILWAYS AND TRAMWAYS:

Accident at Enfield Lock Station, Great Eastern Railway, 179, 273
Inquiries by the Board of Trade, 111
Inquiries Reduced from Lack of Staff and Time, 61
Irish Mail at Weedon, 203, 286
at Liverpool-street Station; Necessity for Responsible Ganger, 133
to Platelayer Due to Single-line Working, 203
at Pollokshaws Station, Collision Between Glasgow Trains, Colonel Druitt's Report, 203, 365, 389
Statistics other than Caused by Shunting, 179
at Wilton, London and South-Western Railway, 179, 273
Accidents, Blue-book for Quarter Ending March 31st, 365
for Quarter Ended June 30th, 577
Board of Trade Returns, 11
on the Chicago and North-Western Railway, Success of "Safety First" Campaign, 203
Fatal, During Present Compared with Previous Years, 341
to Railway Servants Due to Want of Care and Ignorance, 131, 365
on the Southern United States Railway Almost Non-existent, 203
Worst Years in United States, 341
Africa, Formerly German South-West, Rebuilding of Railways and Conversion of Gauge, 203
Alaska Railway in Course of Building by United States Government, 365
Ambulance Trains for British Troops on the Continent, Particulars, 87
American Railway Association, Death of Mr. W. F. Allen, 553
American Railway Statistics, Wages, Revenue and Shareholders, 295
Annual Report on Railway Accidents, 341
Arc Welding for Depositing New Metal on Worn Flanges of Steel Car Wheels, 11
Associated Portland Cement Manufacturers v. The Great Northern Railway, 553
Australian Government Orders for Locomotives for Trans-Continental Railway, 111
Australian Trans-Continental Railway, Good Progress, 295
Automatic Adjustment of Brakes, Doors, Lights, and Speed on New York Municipal Railways, 31
Automatic Couplings and Discomfort in Railway Travelling, 11
Axle Failures, Board of Trade Annual Returns, 389
Axle Failures, German-made and otherwise, Board of Trade Investigations, 389
Bagdad Railway, Completion of Baghtché Tunnel, 481
Baldwin Locomotive Works, Great Increase in Staff, 111
Baltimore and Ohio Railway, Largest Business in its History, 553
Belfast and County Down Railway Dividend, 82
Board of Trade Railway Accident Statistics, 249
Board of Trade White Paper on British Railways in 1914, 249
Bogie Pins and Accidents, 411
Bogie Removal by Electric Crane, 411
Brake for Street Railway Cars in Cairo, 481
Brighton and Hove Electric Railless Omnibuses, Scheme Deferred, 203
British Railway Expenditure in Excess of Receipts, Question to Board of Trade, 525
British Railways and the Wartime Traffic, 577
British South-West Africa, Restoration of Lines of Communication, Narrow-gauge Lines to be Converted to Standard, 35
Broken Rails, Increase of, in the United States, 625
Cab Signalling, Necessity for Uniformity Due to Exercise of Running Powers, 61
Caledonian and North British Railways, Train Service Curtailment, 505
Cambrian Railway Company's Tank Engines, 577
Cambrian Railway Observation Cars, 457
Canada, Train Accident Statistics, 59
Canadian Railway Development; Up-to-date Through Passenger Service between Winnipeg and Toronto *vid* Cochrane, 202
Canadian Railways Mileage Increase, 417
Carr Bridge Accident an "Act of God," 341
Central Argentine Railway, New Station in Buenos Aires, 341
Chalfont and Latimer, Chorley Wood and Chenies Stations, 435
Chicago, Milwaukee and St. Paul Railroad Damaged by Beavers, 553
Chicago, Milwaukee and St. Paul Railroad, Further Conversion to Electric Traction, 157
Chicago, Milwaukee and St. Paul Railway, Electric Locomotives, Special Switch Arrangements for Shed Use, 295
Chicago, Milwaukee and St. Paul Railway, Electric Locomotives, Specimen on Exhibition, 505
Chinese Government Proposed New Lines Outside the Great Wall, 111
Cinematograph Instruction in Signalling on the Pennsylvania Railroad, 295
City and South London Railway, Change in Source of Electricity Supply, 240
Clerks with the Colours, Unstarred, 435
Coasting Recorders on Trains, 577
Collision on the Great Northern Railway, 249
Creosoted Oak Sleepers from Chicago for a South African Line, 317
Cruickshank, Mr. A. E., Manager of Gold Coast Railways, Death at Sea, 133
Deadweight Haulage, Successful Efforts for Reduction, 601

RAILWAYS AND TRAMWAYS *(continued)*:
